

Work Schedule 31 January to 2 February 2017

Trainer:

Rim Cherif, Maître de conférences à l'Iset'Com

Day 1: Publishing Research Results in Peer Reviewed Journals

Time	Topic
9.00-12.00	Publishing in Peer Reviewed Journals
12.00-13.30	Lunch break
13.30-16.30	Publishing in Peer Reviewed Journals

This workshop provides advice and training on publishing scientific and technical results in peer-reviewed English language journals. Participants can bring an example of a paper or outline for an article they are considering for submission to a journal. Topics include: Publication and review process for many journals:

- Determining when and where to publish results
- Identifying data to include in the publication
- Organizing the material
- On-line submissions
- Responding to reviews

Day 2: Effective Scientific Presentations

Time	Topic
9.00-12.00	Effective Scientific Presentations
12.00-13.30	Lunch break
13.30-16.30	Effective Scientific Presentations

This workshop provides training in effective techniques for scientific presentation preparation.

Day 3

CV writing & Communications & Career Launch and Acceleration

Time	Topic
9.00-12.00	CV writing
12.00-13.30	Lunchbreak
13.30-16.30	Communications & Career Launch and Acceleration

The first years as a researcher in science can be exhilarating, exhausting, stressful and rewarding. Discipline and a multitude of skills are required to get off to a good start and maintain an upward trajectory throughout those first few years. This workshop provides strategies and techniques necessary for getting quickly out of the gate and for gaining acceleration during the first year in an academic/research position in science and engineering. Topics include:

- Common mistakes of new faculty members/researcher and ways to avoid them
- Communication methods that are effective in the classroom and group settings
- Negotiation techniques for getting what you need to be productive
- Effective leadership styles
- Setting up a network of support and guidance
- Building a strong CV or vitae
- Developing a strong internet presence
